Danila Tyumentsev

AI Creator: AI video ads, characters, avatars, AI VFX

I make AI video **end to end**: idea, script, storyboard, generation, voice, music and edit. I have worked with generative AI since the first usable models, and for **three years** I have used it to make ads and content for brands.

28 y.o. | Perm, Russia, UTC+5 | Remote | Freelance, project or full-time

views on videos where I did the AI work	views on a single Reel	YouTube Shorts views in 2026	brands: banking, retail, fintech, FMCG

What I do

01

From brief to final file

- AI video ads, end to end
- Consistent characters, mascots, AI series
- AI avatars, voice cloning, lip sync
- AI VFX over live footage, object swaps with masks
- ComfyUI: custom workflows for any task
- Automation: auto-editing, uniquification, pipelines
- Product visuals and marketplace cards
- Voice-over, sound design, music in Suno
- Scripts, hooks, creative variations for testing

Tools

02

Solid mid level, growing professionally

AI video	Higgsfield, Kling, Veo, Seedance, Sora, Runway
Images	Midjourney, Nano Banana, Flux
Avatars, voice, music	HeyGen, ElevenLabs, Suno
Editing and design	CapCut, Premiere Pro, After Effects, Photoshop, Illustrator, Figma
Open source	ComfyUI: custom workflows on open models, local or remote GPU
LLMs and automation	ChatGPT, Claude, Grok, auto-editing, uniquifiers
Platforms	Reels, Shorts, TikTok, YouTube, paid social; 9:16, 1:1, 16:9

Brands I have made creatives for

03

Most of it is under NDA - happy to walk you through it on a call

Pyaterochka (X5) | Yandex Pay | Maggi | Haier | BIOCAD | Rostelecom | BCS | WineLab | Uralsib Bank | BONCHE | DANMAX

Telegram: @DanAura_AI | Phone: +7 932 203-00-75 | Email: 13danil68@gmail.com

Public case studies

These projects can be shown openly. Videos and stills are in the portfolio folder.

BONCHE

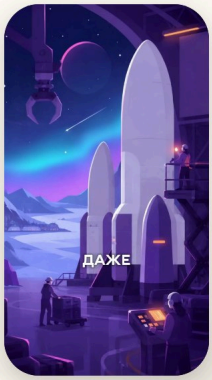

01

Ad film / AI

Published by the brand

Cinematic ad for a new product, from the client script: European streets, vintage cars, cafes. Characters, locations and details made with AI, the same heroes from shot to shot, edited to final.

Video in the portfolio folder

Uralsib Bank

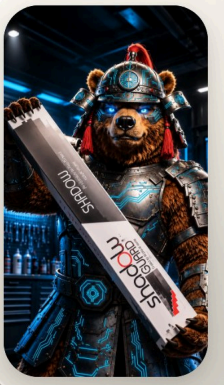

02

Animated ad

On the bank socials

A bank ad told as a cartoon about space, rockets and the northern lights: visual style, scenes, animation, voice-over, music and final assembly.

Video in the portfolio folder

DANMAX

03

Mascot and AI cartoons

≈1.2M views · ≈65 leads

Brand mascot, a bear in armour, and a series of AI cartoons for Shorts, plus live footage with AI/VFX inserts. The mascot video alone got 626K views.

Watch ↗

Maksik

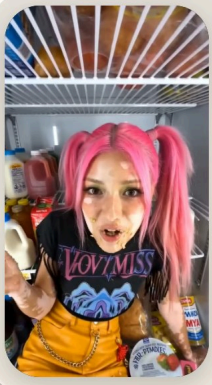

04

Reels format at scale

84.1M on one Reel

A format with a builder hero: green screen shoot, AI generation, edit. 90M+ views on the format, +20K followers in a month, production 5x faster.

Watch ↗

AI series

05

YouTube Shorts

48M views in 2026

Serial Shorts with recurring AI characters, the same faces in any scene. 83,200 hours watched, +12,200 subscribers.

Watch ↗

Zelenovka

06

"Did you know?" Reels

≈1M on the series

A series with a fact hook in the first second, about 20 Reels, hooks tested in variations. Best Reel: 785K views.

Video in the portfolio folder

Easy Payments

07

AI avatar of a speaker

No shoot days

A digital twin of the speaker built from photos: look, voice, lip sync. An expert video format from script to cover that scales to new avatars.

Video in the portfolio folder

Doston

08

AI VFX over live footage

Wow without CG budget

I add what a single video budget cannot shoot: a giant product on the shoulder, new details, extended locations. Objects and backgrounds swapped with masks.

Video in the portfolio folder

Under NDA

01

I can show the work and talk through the process in an interview

Pyaterochka (X5)	Many projects: mascots and characters adapted to every format, AI videos in realistic and cartoon styles
Maggi	Cartoons and realistic videos
BIOCAD	AI creatives for the brand
Marketplaces	Product cards and product visuals without a studio
Yandex Pay	Realistic AI videos, animation, AI music
Haier	Replacing live-action shoots with AI videos
Rostelecom, BCS, WineLab	AI ad creatives

How I work

02

01
Brief and idea
hooks and script

02
Storyboard
scenes and shots first

03
Generation
same hero in every scene

04
Voice, lip sync
ElevenLabs, avatars

05
Sound and music
Suno, sound design

06
Edit
graphics, masks, compositing

07
Variations
hooks and formats for tests

08
Delivery
fast revisions, steady output

Currently improving

03

- Advanced editing and pacing
- Masking and compositing
- I pick up new models in days and put them to work right away

How we can work

04

- Remote, UTC+5, flexible with your time zone
- Freelance, project or full-time
- Delivery for review, same-day revisions

Before AI

05

Financial auditor. That is where my discipline comes from: deadlines without surprises and the habit of working out what performed and why. Degree in economic security.
